School's over - finished - kaput !!! Flour bomb fight time ! Break-up/muck up day for NBHS 5th years - 25th October 1960. The scene at Waratah Park just behind the school, with Young st beside the park & the Clyde street Gasometers in the background, together with a smattering of the infamous Newcastle tall TV antennas visible on the skyline [It's 1960, before the antennas became a forest - not everyone could be able to afford a TV back then]. Georgetown hill, road & shops are just out of the picture on the right. What sort of break-up day have other people had over the years ? I know that some schools have banned extra "activities" especially in recent years.
